TRANSFORM SECURELY

SECURING YOUR DIGITAL TRANSFORMATION STRATEGY

DATE AND LOCATION

Warsaw (PL)

September 19th 2019

Innovations like IoT technology and the cloud have clear benefits: they reduce costs, improve processes and can be rapidly implemented. Which is great – but only if cybersecurity is baked-in from the start. Sadly, this often isn't the case: organizations are opening up their networks to new risks.

Cybersecurity needs to take a lead role in any digital transformation discussion. What steps need to be taken to maintain security as your business continues to digitalize?

This exclusive event is an open discussion about how to 'Transform Securely'. It's a chance for you to learn from your peers about how they're securing digital transformation within their organizations.

Join us and our speaker, Avi Corfas, Skybox Security's Vice President, will also share industry best practices.

Join Us and Discuss...

- How important a role does cybersecurity play in discussions around digital transformation within your organization?
- Are you worried about how digital transformation projects are fragmenting your network?
- Do you have full visibility of your expanded network infrastructure?
- Are you able to secure large-scale business changes like mergers, acquisitions and divestments with your current set-up?

JOIN US for senior-level conversations, exchange of ideas and networking at **Be Exclusive Events'** Exclusive, intimate, by invitation only **Exclusive Dinner – Transform Securely: Securing your Digital Transformation Strategy.**

This particular dinner would be of interest to executives with the following titles:

- Chief Information Officer
- Chief Technology Officer
- Chief Security Officer
- Chief Information Security Officer
- Chief Architect
- And VPs, Head of Departments with responsibilities in **Cybersecurity, InfoSec, IT Platforms, SRE, Infrastructure, IT and Digital Transformation.**

TO REGISTER
